Law Promo Media Kit

Law Promo is a professional law firm web design development and marketing agency that caters exclusively for the Legal Profession. Our clean, advanced design approach, combined with search engine marketing, has positioned ourself as a leader in creating a successful online presence for legal professions. Law Promo has successfully offered internet legal marketing solutions to our clients as well as powerful and effective web site designs that have met or exceeded their expectations. We specialize in building & marketing websites for professionals for Lawyers, Law Firms and other legal professional businesses. Law Promo is an industry leader at building websites that professionally reflect your image, and successfully market your services to potential clients.

Offering 3 different law firm web design packages, Law Promo caters all different sizes of law firms and attorneys, as well as the specific needs of each individual law firm. Law Promo's packages are designed to allow individual law firms to decide their needs, for example one law firm might be perfectly happy with a template design, and another may require setting up a database or implementing an extranet. These things are very different, not only in design, but also in cost effectiveness and time required to complete. This approach allows no complications as well as no questions as to what exactly a lawyer is getting with each package deal.

The Expert package is an excellent solution for solo to small law firms looking to expand their reach and attract new clientele as well as those looking to improve their already existent web presence with a budget friendly, design conscious website. When your firm is ready to stand above the rest, this is the package for you.

If you want to reach the most potential clients possible, then the business package is the

perfect choice for your law firm. Search Engine Optimization, custom design and contact form for potential clients to reach you easier, are just a few of the benefits of what the business package will do for your website.

Law Promo's Enterprise package is the web marketing solution for large established firms looking for a clean, sharp, custom designed website that is optimized for search engine discovery. With an advanced attorney search, specialized pages for each location, and easily updateable attorney information, this package will really make your firm stand out well above the rest.

Law Promo is also partnered with SeoMio.com, which is a leading Search Engine Optimization company who will handle any in depth search engine optimization for your site. This is the case since search engine optimization is a continual and ongoing process, it takes a dedicated team to make sure your website reaches the top of the rankings. All of this will be handled through Law Promo so there will be no hassle of dealing with different companies.

Law Promo offers your complete internet legal marketing solution, integrating high-end website development, search engine optimization and content management, all within your budget.
